South American and North American Quinoa

NEW

Andean Naturals Joins The Annex by Ardent Mills Family

With demand for high-quality, nutritious plant-based ingredients on the rise, TOGETHER, we offer a complete solution for quinoa.

Andean Naturals has a strong, trusted partnership with the quinoa farmers of the Altiplano in Bolivia.

Our gluten-free facility in Yuba City, California, cleans and packs our quinoa. We are BRC certified as well as conveniently positioned near the port.

Small, light-colored, round grain with an unmistakably nutty, earthy flavor. Our identity preserved varieties are traceable to the source. Lively flavor with a fluffy, soft crunch, our quinoa provides a star role in side dishes and complements bars, bowls, artisan-style breads and more.
